allowed in the water
at Clark Pond, Little
Massabesic or Tower
Hill Pond.**

A portion of the proceeds from this ride will benefit equestrian trails at NH parks . Here is a little of what we have accomplished and what we have planned for the future.

At Bear Brook State Park

- We have improved the access road to the rear of Hayes field making it safe for trailers.
- We donated funds to the construction of an ADA compliant mounting station at Hayes Field.
- We continue to maintain the mounting station
- As a club, we gather to clean and maintain trails.
- We have participated in cleanup activities at Bear Hill Camp
- We are working on the development of pending new horse trails at the park
- We continue to move forward with helping the state establish a horse camping area with a fenced area and water.
- In March 2022 we donated \$500 to the new horse camping area

At Pawtuckaway State Park

- We have helped reconstruct and maintain bridges
- We work with the park managers on best practices for both parks.
- In March 2022 we donated \$500 to improve the new trailer parking area

Your participation in our ride will help us to accomplish much more!

FROM THE NORTH OR SOUTH—

Take Rte 93 TO Manchester and look for Rte 101 towards the Auburn/Candia and the coast

ALTERNATE FROM THE SOUTH

Take Rte 28 north to Derry and continue on Rte 28 ByPass to Rte 101 towards the Auburn/Candia and the coast

FOLLOW RTE 101 to exit #2

At exit 2, take Hooksett Rd south about 1 mile to a left on Depot Rd, travel about a half mile and look for the ride field on the right side across from Clark Pond
